

## ANNOUNCING THE SELECTED TEAMS FOR THE 4TH EDITION OF THE STARTUP INCUBATOR IN AREA 31

Escrito el 9 mayo 2014 por entrepreneurship en [emprender](#)

Once more, the high level of the applications to the Incubator in Area 31 has made the job of the selection committee very difficult. We could only select 30% of the applicants. Thus, a big THANKS goes to the members of the selection committee (IE professors, mentors and investors in residence) for standing up to the challenge. We also thank all the applicants for their interest in growing their projects with us.

We're looking forward to sharing the next 6 months with the new intake of startups in the Incubator in Area 31 and we hope to see all the other teams at the multiple open events hosted in Area 31.

The teams that will join the fourth edition of the Startup Incubator in Area 31 are:
